QUALITY POLICY

The Quality Policy of CORE CONSTRUCTION Group is as follows:

- ✓ Perform projects that will meet customer requirements as formulated in the tenders / contracts signed, keeping costs at competitive levels.
- ✓ Ensure that customer requirements and expectations, considering contractual obligations, including legislative and regulatory requirements, have been identified and implemented to meet their satisfaction.
- ✓ Take all necessary precautions to ensure the Health and Safety of Workers.
- ✓ Employ staff selected on the basis of the criteria and requirements of each post, as well as to participate in the vision of the group.
- ✓ Implement a program of continuing education and training of staff by specialized trainers.
- ✓ Utilize modern technology and to constantly modernize the equipment used.
- ✓ Systematically monitor and maintain at a high level the satisfaction of its customers.
- ✓ Apply a systematic quality control program in the execution of projects.
- ✓ Implement the Quality Objectives it sets, through their effective evaluation.
- ✓ Constantly improve the Quality Management System.
- ✓ Safeguard the property belonging to customers or external providers.
- ✓ The name of the group to be a guarantee for the quality of the projects it performs.

To achieve this, the Group, whose strategic orientation is developing in Greece and abroad, has documented and implemented a Quality Management System, that fully complies with the requirements of **EN ISO 9001:2015**, which includes all activities that affect the quality of the works it produces, as well as its interactions with customers.

The Quality Management System is the tool for the development, improvement and further recognition of the group in the marketplace and has the solid support of the management in the field of resources - instruments for its effective implementation and improvement.

The Quality Policy that the Group has established is understandable by all staff and its daily concern is its fulfillment. The policy is informatively available to all interested parties.
